Fifa14 Completo Ultimate Patch14 V2 Incluso The Game. Created by After the Last Battle EA. FIFA14 Ultimate Team and Player Card system Interviews.Q: How to use custom fonts for UITableViewHeaderFooterView? I'm using UITableView with custom UITableViewHeaderFooterView to display some data. I want to use custom font for header, so I've added custom font to "Copy Bundle Resources" (to simulator as well). However, UITableView doesn't seem to see it. This is my code: - (UIView *)tableView:(UITableView *)tableView viewForHeaderInSection:(NSInteger)section { UITableViewHeaderFooterView *header = [tableView headerViewForSection:section]; return header; } I try to use different custom fonts from iOS simulator (for example, HelveticaNeue-Medium or HelveticaNeue-Bold). What's more, it works fine when I try to use custom font in "regular" UITableView with tableViewHeader and tableViewFooter (tableView.tableViewHeader and tableView.tableViewFooter). Any ideas?
