===== An app that you can put in full screen, without having other windows visible. Our new version includes a mouse pointer and a customizable close button. This version is new and does not use any system tray icon. You can move it to the system tray if you want to. If you are experiencing issues or have a suggestion for improvement, contact us: support@freedapps.com Freedapps Desktop Drape Serial Key features: ----- 1. Full screen: move mouse over a specific area on your computer screen and press F12. You have full control over the area you want to focus on. The focus area is on top of all other windows and it does not matter if it's behind a photo, a tab in a browser, a graph in a chart-receiving app or even a video playing in full screen. 2. No other window: the area is always on top, no matter if other windows are open. They are completely gone except for the focus area. 3. customizable: you can change color, opacity, mouse pointer and close button. We are even open to any request for customizations you may have. 4. No tray icon: no tray icon, no problem for Windows 7/8/8.1/10! 5. No need for Memory: the area is always on top, it does not save its size in memory, so it does not use any memory when not in use. If you are experiencing issues or have a suggestion for improvement, contact us: support@freedapps.com We at Freedapps are always looking to improve our software and make it better for you. Please be aware that we do not accept and/or take responsibility for any issues, caused by customers updating our software. *NOTE: The free trial version is limited to usage of only a few functions of the application. Freedapps Desktop Drape

An interactive program for Windows 7 and 8 that allows you to remove windows, drape the screen or make a screenshot with a clean background. All this from a simple right click, keyboard or mouse. To start using "Freedapps Desktop Drape", just select the programs option from your Start menu and pick from the installed programs list or download and install the trial version of "Freedapps Desktop Drape" to see how it works. If you have any issues using "Freedapps Desktop Drape", please contact our technical support at technical.support@freedapps.com. Freedapps Desktop Transparent is an interactive program for Windows 7 and 8 that allows you to easily reduce the opacity of windows and gain control over your mouse cursor. This small application is not an alternative to the Windows Color Picker, but more of a feature that can be used to take advantage of the flexibility of Windows. With "Freedapps Desktop Transparent", you will have complete control over how your mouse interacts with your computer. Here are some key features of "Freedapps Desktop Transparent":

- ultra-small size: does not take up any disk space and does not create any memory when inactive
- quick and easy access: just right click or click and drag your mouse to quickly reduce the opacity of any window
- easy to use: interact with the mouse in one place or keep it at your side while you work. Simply right click on any window to reduce its opacity, and you can also use keyboard shortcuts.
- use default Windows keyboard shortcuts or use custom shortcuts that you can assign
- choose any opacity percentage from 0 to 100%
- use any opacity value from 0% to 100%
- maintain the transparency for multiple windows
- restore transparency after you close the program

You can use "Freedapps Desktop Transparent" to take advantage of the large range of opacity values available to your mouse. With this tool, you can easily decide if you want to use your mouse as a graphical pointer, or if you would prefer to be able to see what your mouse is actually doing. Requirements:

- Microsoft.NET Framework Version 2.0 or above

Description: An interactive program for Windows 7 and 8 that allows you to reduce the opacity of windows and gain control over your mouse cursor. Here is a video overview of "Freedapps Desktop Transparent" and a video tutorial that shows you how to use it. If you have any issues using

Saudi Arabia has used the deadly nerve agent VX in one of its post-9/11 secret strikes on an al-Qaeda target in eastern Yemen, as published today in the New York Times. With dozens of Gulf Arab states now mobilizing their air forces in support of a Saudi-led coalition bombing Yemen's Houthi rebels and Saudi Arabia's main regional rival, Iran, Saudi Arabia is under intense pressure to account for its motives and actions in the country. Saudi Arabia has used the deadly nerve agent VX in one of its post-9/11 secret strikes on an al-Qaeda target in eastern Yemen, as published today in the New York Times. The attack on a Houthi military base in the southwestern Yemeni province of al-Bayda occurred on March 19, the same day that the Arab League approved a cease-fire that will begin on April 22. The Saudi-led coalition, which is also supported by the United States and the United Arab Emirates, was planning to launch a new air campaign against the rebels before they signed the cease-fire, a senior coalition officer told the Associated Press on Sunday. The official spoke on the condition of anonymity because he was not authorized to speak to the press. The poison attack, by a liquid or gaseous nerve agent, was reportedly carried out by a Saudi pilot using a sort of bomb bay to release the nerve agent, the Times reported. Yemen's Interior Ministry said
