different keys, which greatly simplifies the task of creating, saving and running your macros. KeyMacro allows you to create macros using different key combinations, even if you use the same keyboard. Moreover, you can specify which keys to be pressed in any sequence, up to 24 in a row. KeyMacro is an easy-to-use utility that allows you to record and replay in-game key presses as macros, so you can easily perform complex actions using a combination of keys. KeyMacro is a unique utility, which enables you to create macros for specific game action, using only a few key presses, thus making game play more accessible. KeyMacro automatically saves and recognizes your key combination. Therefore, there is no need to manually configure every key combination, which is inconvenient and time-consuming. KeyMacro can be configured to assign specific actions to up to 12 different keys, which greatly simplifies the task of creating, saving and running your macros. KeyMacro allows you to create macros using different key combinations, even if you use the same keyboard. KeyMacro is an easy-to-use utility that allows you to record and replay in-game key presses as macros, so you can easily perform complex actions using a combination of keys. KeyMacro is a unique utility, which enables you to create macros for specific game action,
